

## ONGC MAKES GAS DISCOVERY IN KG BLOCK

New Delhi, Sept. 15: State-run Oil and Natural Gas Corp (ONGC) has made another discovery in its Bay of Bengal block KG-D5, taking the number of finds in the area to 13.

ONGC discovered oil and gas in the well F-1 in the northern part of the KG basin block KG-DWN-98/2 or KG-D5, which sits next to the flagging KG-D6 block of Reliance Industries.

"On conventional testing, exploratory well F-1 flowed oil at the rate of 732 barrels per day and gas at the rate of 13,155 cubic meters a day," ONGC chairman and managing director

Dinesh K. Sarraf said.

ONGC had also made a gas discovery in an onland block in AP and also found a new pool in Cauvery onland block in Tamil Nadu.
